DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: No prior art has been found or submitted that either teaches or fairly suggests the production of an "aromatic liquid-crystalline polyester consisting essentially of: a repeating unit derived from 2-hydroxy-6-naphthoic acid of 30 to 80 mol%; a repeating unit derived from aromatic diol of 35 to 10 mol%; and a repeating unit derived from aromatic dicarboxylic acid of 35 to 10 mol %," or its use in manufacturing a film, or a dielectric paste, as herein recited and claimed. With the abandonment of application SN 10/799,710, the provisional rejection of claims 1-22 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of copending Application No. 10/799,710 is untenable and, thus, is expressly withdrawn. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan M. Nutter whose telephone number is 571-272-1076. The examiner can normally be reached on 9:30 a.m.-6:00 p.m..
